

Available Courses

EverFi offers 20+ digital courses for students in grades K-12 on critical topics including financial education, mental wellness, compassion, digital wellness, prescription drug safety, and more.

Social-Emotional Learning

Our social-emotional learning curriculum is designed to help students manage their emotions, practice self-awareness, build perseverance skills, and maintain healthy relationships, so they can excel in school, community, work, and life.

Ignition: Digital Wellness and Safety

Designed for grade levels 6-9

Ignition: Digital Wellness and Safety is a digital literacy curriculum designed to provide students with the information they need to safely and confidently navigate the digital world. Through six digital responsibility lessons, students take practical steps to protect their own privacy and safety online. By learning digital literacy skills including how to evaluate content for accuracy, perspective, and motive, Ignition's digital literacy curriculum helps students acknowledge the benefits of digital communities and resources while guiding them to successfully navigate potential pitfalls in their digital lives.

Health and Wellness

With a focus on prevention first, our evidence-informed health and wellness curriculum teaches students to make healthy choices by presenting relatable scenarios in real-world, age-appropriate contexts.

Healthier Me | Elementary School Edition

Designed for grade levels 1-4

The choices students learn to make when they're young can have a lasting impact on their lifetime well-being, happiness, and academic success. But 96% of elementary schools are unable to provide daily physical education. EVERFI's Healthier Me is an innovative, games-based elementary school health curriculum that educates elementary school students about the importance of well-balanced meals and physical activity. These elementary health lesson plans prepare students to make healthy, informed decisions when it comes to nutrition and fitness, securing a healthier and happier future for the next generation.

Healthier Me | Middle School Edition

Designed for grade levels 6-8

The health-related choices students learn to make when they're young can have a lasting impact on their lifetime well-being, happiness, and academic success. EVERFI's Healthier Me is an innovative, games-based middle school health curriculum that gives students the tools to make healthy, informed decisions when it comes to health and nutrition. Throughout the course, students embark on fun wellness adventures through interactive games—from completing grocery shopping to creating a well-balanced cafeteria lunch—working through true-to-life scenarios to help them achieve positive wellness outcomes.

Health and Wellness

With a focus on prevention first, our evidence-informed health and wellness curriculum teaches students to make healthy choices by presenting relatable scenarios in real-world, age-appropriate contexts.

Mental Wellness Basics

Designed for grade levels 8-10

Mental Wellness Basics is a digital resource that introduces middle and high school students to mental health education. Stigma associated with mental health can have serious and negative impacts on help-seeking behaviors, and many mental health conditions and symptoms can be significantly lessened through prevention. Placing importance on mental health education in schools leads to less stigma and improves the overall mental health of students.

Financial Education

Focused on practical applications, our financial education curriculum is all about building better spending habits, instilling confidence, and equipping the next generation with the skills to pursue big financial goals with minimal risk.

Vault: Understanding Money

Designed for grade levels 4-6

Vault is an interactive, online learning resource specifically designed to promote financial literacy for elementary students and teach financial education skills to young learners. Understanding money can be tough for young minds, Vault uses the latest in new-media technologies and evidence-based learning to bring complex financial concepts to life with fun money managing games for today's digital generation. With lessons on fiscal responsibility, money management, credit and borrowing, savings and more, this resource provides all you need to kickstart financial literacy activities for elementary students in your school. Vault increases basic financial literacy for elementary students and builds the foundation of healthy financial decision-making at a young age. By laying the foundation of financial literacy for youth at such a young age, Vault sets students up with the critical skills required to make responsible financial decisions for the rest of their lives.

Venture: Entrepreneurial Expedition

Designed for grade levels 7-10

Venture – Entrepreneurial Expedition is a youth entrepreneurship curriculum designed to teach students to think entrepreneurially about business and life. Using case studies, interactive business simulations and personal development activities, this course teaches important basic business skills. This student entrepreneurship program isn't just about teaching kids business terminology. Students develop a personalized plan for their individual business, including financing, marketing, team-building, and market research, along with a roadmap for academic and career success.

Financial Education

Focused on practical applications, our financial education curriculum is all about building better spending habits, instilling confidence, and equipping the next generation with the skills to pursue big financial goals with minimal risk.

EVERFI - Financial Literacy for High School

Designed for grade levels 9-12

EVERFI: Financial Literacy for High School is a digital education program that teaches students how to make wise financial decisions to promote financial well-being over their lifetime. The interactive lessons in this financial literacy course translate complex financial concepts and help students develop actionable strategies for managing their finances. Immersive digital environments and diverse characters bring modern, relevant financial education objectives to life. Students accelerate their financial understanding through problem-solving, self-reflection and games that provide real-life scenarios for practice.
